

May 12 Update

Dear trekking friends, we have landed in Edmonton Alberta this week. What do you think of when you think of Edmonton? The mall? Oil? We are about to get a new perspective on the land that is shared through Treaty Six. Our journey here has taken us through Anishinabewaki, including Cree as well as Metis territories. If I say we are in for a treat this Friday, it implies we haven't been treated with all the other wise, gentle and generous speakers to bless our trek across Canada / Turtle Island so far. I don't want to imply that, but I can tell you that you don't want to miss Charlene Burns this Friday, May 14th at 2:00 p.m. *(If you would like to join the zoom event, please contact [Wanda Stride.](#))* I had the privilege of traveling to El Salvador in 2016 with Charlene and her husband Russell, as we learned about peace and reconciliation in that country. Join us Friday as Charlene talks to us about Treaty six and Cree Culture. You will notice our map looks a little different this week. I am starting to wonder if we will make it all the way to Iqualuit?

With blessings

Wanda
